

Please Join Us at the Mid-Atlantic Regional Meeting (MARM) of the American Chemical Society (ACS)

What	Kids & Chemistry – Fun Hands-on Chemistry Activities for Students - Grades 3rd – 8th
When	Saturday, June 2, 2012 – 1 hour session (you pick which one) Session 1: 8:30 – 9:30 am , Session 2: 9:40 – 10:40 am, Session 3: 10:50 – 11:50 am
Where	University of Maryland, Baltimore County (UMBC)
Cost	Free, but registration is required.

SPACE IS LIMITED!

Choose one of the following chemistry activities*, then circle your session choice (above):

- **Chemistry's Rainbow**
Best for grades 5–8
Interpret color changes like a scientist as you create acid and base solutions, neutralize them, and observe a colorful chemical reaction.
- **Jiggle Gels**
Best for grades 3–5
Measure with purpose and cause exciting physical changes as you investigate the baby diaper polymer, place a super-absorbing dinosaur toy in water, and make slime.
- **What's New, CO₂?**
Best for grades 4–6
Combine chemicals and explore the invisible gas produced to discover how self-inflating balloons work.

*ACS Kids & Chemistry Activity Kits available for purchase at www.acs.org under Education

Registration: Parents of students must pre-register their student by May 1, 2012 to reserve a space. Groups can also pre-register (Information Required: Group Name/Type, POC, POC e-mail & # of students). Space is limited.

For questions or to register please contact Sue Procell at suzanne.a.procell.civ@mail.mil
