

**SAVE THE DATE: June 11, 2016**  
Green Chemistry Workshop for Science Teachers  
8:00 a.m. – 4:30 p.m.  
College of Mount Saint Vincent

The New York Section of the American Chemical Society in partnership with Beyond Benign, Inc. and the New York State Pollution Prevention Institute (NYSP2I) will be offering a FREE, full-day training on the principles of green chemistry to high school science teachers from New York City.

### Who should attend?

- High school chemistry and general science teachers
- Teachers interested in preparing their students for the 21<sup>st</sup> century
- Teachers who see sustainability as a core understanding for all students
- Teachers who want to learn cutting-edge science

### Workshop Features:

- Lesson plans to introduce green chemistry to students
- 12 Principles of Green Chemistry
- “Hands-on” laboratory experiments (including drop-in green chemistry experiments as replacement practical labs aligned to NYS learning standards)

*Beyond Benign is a national non-profit organization dedicated to green chemistry education. Co-founded by Dr. John Warner, a founder of the field of green chemistry. Beyond Benign has led the charge, nationally, on green chemistry in education through their many green chemistry training workshops to high school teachers.
